

ConnectedComponent
::getMaxSimilarity

TransClust::TransClust

```
graph LR; A[TransClust::TransClust] --> B[ConnectedComponent::getMaxSimilarity]
```

A diagram showing a call from the `TransClust::TransClust` constructor to the `ConnectedComponent::getMaxSimilarity` method. A blue arrow points from the `TransClust::TransClust` box on the right to the `ConnectedComponent::getMaxSimilarity` box on the left.
