

ConnectedComponent
::getMinSimilarity

TransClust::TransClust

```
graph LR; A[TransClust::TransClust] --> B[ConnectedComponent::getMinSimilarity]
```

A diagram showing a call from the `TransClust::TransClust` constructor to the `ConnectedComponent::getMinSimilarity` method. A blue arrow points from the `TransClust::TransClust` box on the right to the `ConnectedComponent::getMinSimilarity` box on the left.
